

SKID 63 COLLECTOR SPECIFICALLY FOR SKILLET CONVEYORS

QUICK & EASY

- Quick installation
- Simple maintenance

PROCESS RELIABILITY

- Reverse polarity protection
- Self-centering
- Optimal cable guidance

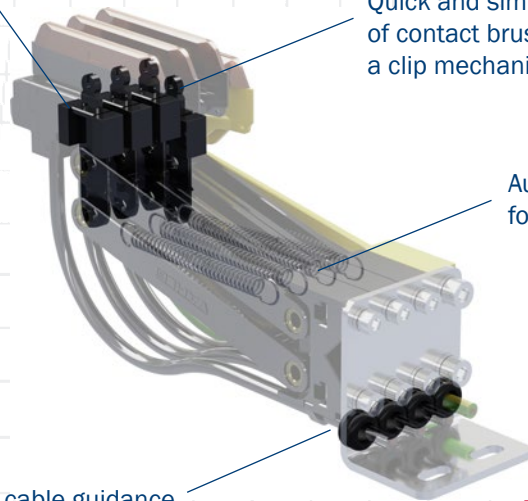

SKID 63

Special elastomere foam provides optimum contact pressure

Quick and simple exchange of contact brushes using a clip mechanism

Automatically centering for funnel entry

Defined cable guidance assures reliable functioning

TECHNICAL DATA

- Possible deflection: ± 30 mm $\updownarrow \leftrightarrow$
- Travel speed: up to 180 m/min
- Max. current capacity: 63 A per collector brush
- Touch protection as per IP21
- PE polarity protection
- UL approval
- Automatically centering for funnel entry
- Optimized for bi-directional travel
